FY 2014 Historical Arrest Details Query is from BIS October 5th, 2014

FY2015 data is updated through 09/30/2015 (IHAS v1) 19 run date: 10/01/2015 EID as of 10/02/2015

Please note that the unassigned AOR records are under further review.

Arrests are primarily based on apprehension threat level. The Apprehension Threat Level is associated with the person's ICE arrest and it reports only on convictions for crimes occurring on or prior to the date of that ICE arrest. ICE began reporting this as of 10/01/2010.

ERO Arrests include all ERO Programs. ERO Programs include: Immigration and Deportation (INDP), Fugitive Operations (FUG), Alternatives to Detention (ATD), Criminal Alien Program (CAP), Detained Docket Control (DDC), Non-Detained Docket Control (NDD), Violent Criminal Alien Section (VCAS), Joint Criminal Alien Response Team (JCART), Juvenile (JUV), Law Enforcement Alert Response (LEAR), and 287(g).

All data are pulled based on Current Program which attributes all cases back to the Program of the processing officer of the event.

Detention data is updated through 09/30/2015 (IINS v1.19 run date 10/04/2015, ED as of 10/02/2015).

The ICE Threat Levels reflect the priorities outlined in Director Morton's June 2010 Memorandum entitled R.E. Civil Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level convicted criminal or not (non-criminal immigration violation). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are those aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are those convicted of "misdemeanor" crimes punishable by less than 1 year. Prior to FY 2011, ICE used N' levels 1, 2, and 3 for prioritization purposes.

FY2012 excludes MBRP facilities and ORR transfer facilities as well as US Marshals Service Prisoners. Currently Detained No Travel Document Request Details has been modified to better reflect travel documents requested for Case Based Detentions.

Unlinked detentions are not currently being captured in the detention case-based report. This affects the final order vs. pending final order figures for the detention population.

The ICE Threat Levels reflect the priorities outlined in Director Morton's June 2010 Memorandum entitled ICE Civil Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crime(s) punishable by less than 1 year. Prior to FY 2011, ICE used SC levels 1, 2, and 3 for prioritization purposes.

The figures contained in this report for FY2001 through FY2015 are historical and remain static.

FY2010, 2015 includes CBP and MHP facilities, as well as U.S. Marshals Service Processors.

FY2015: ICE Criminality is based on Removal Case Threat Level. Level 1 = Criminal Level 1 refers to the presence on a removal order of a Motion to Revoke (MTR) or a Motion to Revoke (MTR) issued by Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2 and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(4) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanors" (crimes) punishable by less than 1 year. Prior to FY 2012, ICE used "levels 1, 2, and 3" for prioritization purposes. FY2011-2012 criminality was based on Infinite Criminal Yes/No Logic.

All cases are placed in case on a current program when it originates all cases back to the Program of the processing officer of the event. However, if a current program (NLI, MTR, etc.) or null, then Prior Program is used. ICE's 21 Arresting Agency includes the following FBI and ICE Arresting Agency programs: ICE Program, Alternatives to Detention, ICE Criminal, ICE Program, Detention/Arrest Control, Control, Detention and Deportation, Law Enforcement, Data Response Unit, Non-Detention/Arrest Control, Juvenile, Fugitive Operations, Violent Criminal, Alien Section, Joint Criminal, Alien Response Team, Protection and Parole, Quick Response Team, User Fee Investigations, Joint Terrorism Task Force, Non-User Fee Investigations, ICE Criminal, Arrest Unit, and Intelligence.

The CBP Arresting Agency includes the following programs: Border Patrol, Inspections, Inspections-Int, Inspections-Land, and Inspections-Sea.

The Other Arresting Agency includes the following I-360 and "Other" Arresting Agency programs: Examination Adjudications, Asylum, Office of the Principal Legal Advisor, Detention program area for interview records, and PPS (Volant).

FY2015 data is updated through 09/30/2015 (IHS v1.19 run date 10/04/2015; EID as of 10/02/2015). The figures contained in this report for FY2001 through FY2014 are historical and remain static. Only FY2015 YTD figures are updated in this report. FY2010 - 2015 excludes ORR and MRP facilities, as well as U.S. Marshals Service Prisoners.

The Average Daily Population (ADP) is based on Midnight Count. A MANDAY is based on whether a SUBJECT is in a ERO Detention facility for the midnight count. For every SUBJECT in a facility for the midnight count, that corresponds to one MANDAY. The ADP is the number of mandays for a given time period, divided by the number of days in that time period.

The Fiscal Years Highlighted in Gray indicate Removals Only, no Returns.
Returns include Voluntary Returns, Voluntary Departures and Withdrawals Under Docket Control.

The ICE Threat Levels reflect the priorities outlined in Director Morton's June 2010 Memorandum entitled ICE, Civil Immigration Enforcement Priorities effective October 1, 2010. Since FY 2011, ICE has defined criminality as whether or not an alien has an ICE Threat Level (convicted criminal) or not (non-criminal immigration violator). For purposes of prioritizing the removal of aliens convicted of crimes, ICE personnel refer to the following offense levels: Level 1, Level 2, and Level 3 offenders. Level 1 offenders are those aliens convicted of "aggravated felonies," as defined in § 101(a)(43) of the Immigration and Nationality Act, or two (2) or more crimes each punishable by more than 1 year, commonly referred to as "felonies." Level 2 offenders are aliens convicted of any other felony or three (3) or more crimes each punishable by less than 1 year, commonly referred to as "misdemeanors." Level 3 offenders are aliens convicted of "misdemeanor" crimes punishable by less than 1 year. Prior to FY 2011, ICE used SC levels 1, 2, and 3 for prioritization purposes. ERO Removals include aliens processed for Expedited Removal (ER) and turned over to ERO for detention. Aliens processed for ER and not detained by ERO are primarily processed by Border Patrol. CBP should be contacted for those statistics. The figures contained in this report for FY2001 through FY2015 are historical and remain static. FY2009 Removals and Returns are an adjusted historic number as of 8/16/2010 and will remain static. FY2015 data is updated through 09/30/2015 (IIDS v1.19 run date 10/04/2015, EID as of 10/02/2015). Starting in FY2009, ICE began to "lock" removal statistics on October 5th at the end of each fiscal year and counted only the aliens whose removal or return was already confirmed. Aliens starting or returned in that fiscal year but not confirmed until after October 5th were excluded from the locked data and thus from ICE statistics. To ensure an accurate and complete representation of all removals and returns, ICE will include the removals and returns confirmed after October 5th into the next fiscal year. The number of removals in FY2009, excluding the "lag" from FY2008, was 387,790. The number of removals in FY2010, excluding the "lag" from FY2009, was 373,440. This number does not include 76,732 expedited removal cases which ICE closed on behalf of CBP in FY2010. Of those 76,732, 33,909 cases resulted from a joint CBP/ICE operation in Arizona. ICE spent \$1,153,200 on those 33,909 cases. The number of removals in FY2011, excluding the "lag" from FY2010, was 385,145. The number of removals in FY2012, excluding the "lag" from FY2011, was 402,919. The number of removals in FY2013, excluding the "lag" from FY2012, was 363,144. The number of removals in FY2014, excluding the "lag" from FY2013, was 311,111. FY Data Lag Case Closure Lag is defined as the physical removal of an alien occurring in a given month; however, the case is not closed in EARM until a subsequent FY after the data is locked. Since the data from the previous FY is locked, the removal is recorded in the month the case was closed and reported in the next FY Removals. This will result in a higher number of recorded removals in an FY than actual departures.
